## skills

### Software:

**Strong knowledge:** Maya, Photoshop

**Good knowledge:** Realfow, Premiere, Reason

**Basic knowledge:** Zbrush, Fusion, After Effects, Dreamweaver, Encore, 3ds Max, UnrealEd etc.

### Hardware:

I've build and configured several systems from scratch including liquid cooling systems. My interest in computer hardware started when a was a kid with my first computer a Schneider cpc364, followed by a Commodore C64, Amiga500 and after that several Intel based systems.

Right now I'm working on a dual Xeon 8 core workstation, QuadroFX3700, 8gigs ram.

My current gaming machine is a liquid cooled Core2Quad, GTX 280, 4gigs ram.
